## Water Softeners

Letters were sent in the water/sewer bill regarding the City's water softener optimization program. The City is working with the DNR to reduce chloride levels. What this means for residents right now is, if you are installing a new water softener you will need to meet minimum salt efficiency standards. **If you are not installing a new softener, there is no action to be taken at this time**, however the City will contact you as the 5-year program moves forward.

## America Recycles Day

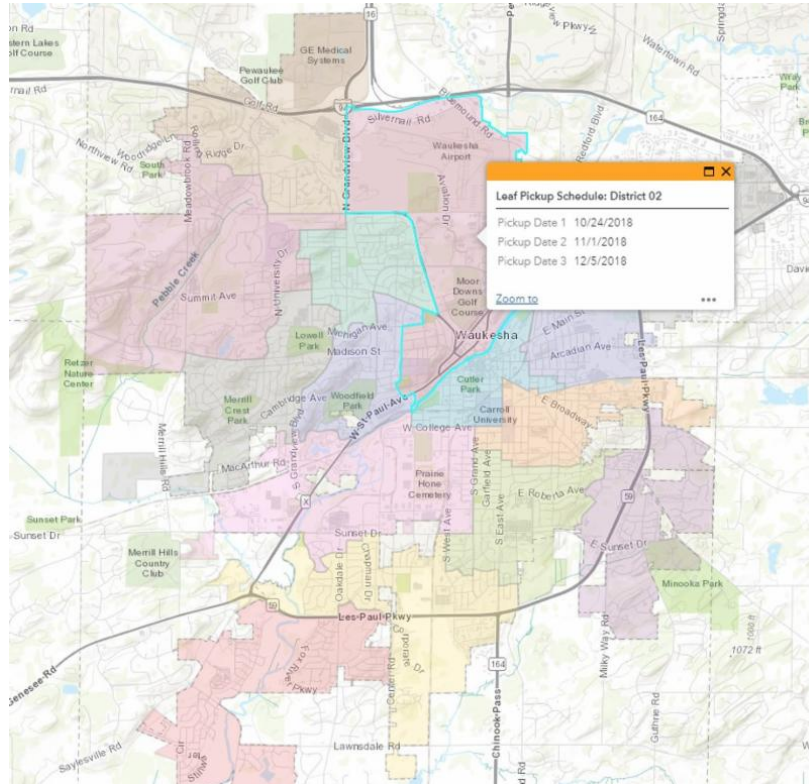

November 15 is America Recycles Day. Take some time this week to review your recycling habits and to review the list of items that recyclable.

Remember, not only is recycling good for the environment, it also saves the City money. We pay to dispose of garbage but receive rebates back for recycling.
