

WHAT'S UP IN WAUKESHA

A newsletter by the City of Waukesha

Ask the Plow Driver

Most of us are sick of snow!

To help us all get through these final weeks of winter, each week we will highlight a question we have been receiving about plowing operations. You can also be a part of the conversation on the [City's Facebook page](#) or [Twitter Page](#).

QUESTION: Why is the plow truck back? I cleared out my driveway when they went through the first time, and now I have more snow at the end of my driveway.

ANSWER: Most residential streets in the City require 4 total passes before they are complete (2 passes on each side of the road). On the first pass on one side of the road the driver plows the middle of the road to about 2-3 feet from the curb. On the second pass, the driver plows as close as they can to the curb. It takes these two passes on each side to get the entire roadway clean.

Keep Them Clear

In an emergency, every second counts. Help the Fire Department and Water Utility be able to respond quickly by:

- Removing any snow and ice from the hydrant
- Clearing a wide enough

perimeter to walk around it (about 3 feet)

- Clearing a path from the hydrant to the street.

Stay Active

With all the snow and cold, it's been hard to stay active this winter... aside from shoveling.

Here are a few options to keep you moving:

- Open walking is offered at the Schuetze Recreation Center Monday-Friday from 7:45am-8:30am
- New group fitness classes are starting in March. [Check out a variety of programs.](#)

Thank you Engineers

It's National Engineers Week. We have Engineers on staff in our Public Works Department and Water Utility. They help design roads, storm sewer systems, sewer systems, water systems and more! All of these are essential systems we rely on every day, whether we realize it or not!

Wondering what they are working on for 2019? Check out the map of construction projects for this year. Or [see a listing of the projects by month.](#)

City Hall Update

Work continues on the designs for a new City Hall that would be located on the current property.

The designs are expected to go before the Common Council for final approval in April.

Based upon approvals, construction is anticipated to start in the fall.
