For Immediate Release

Bids Received for Proposed New City Hall

On Friday, August 16 bids were received for the proposed City Hall project. There were four bidders on the project with Greenfire Management Service as the low bidder with a bid of \$19,405,000. This bid was under the City's budgeted estimate for the project.

The project bids will go to the Board of Public Works for approval on August 22, 2019 and then to the Common Council at their meeting on September 3, 2019. If approved, the groundbreaking for the new City Hall could occur as early as the end of September with an estimated project completion date of January 2021. The current City Hall building would remain open to serve the public during the construction.

The current City Hall was built in 1965 and poses significant safety, maintenance, and operational concerns. The new City Hall will seek to correct these concerns as well as bring the City Hall and City Hall Annex into one building to provide a more centralized location for residents to interact with the City. More information on this project is available on our website: <https://waukesha-wi.gov/1603/City-Hall-Project>
