102 Small Businesses to Receive Waukesha Works Economic Recovery Grant

The City of Waukesha is pleased to announce that the Waukesha Works Economic Recovery Grant program will provide 102 small businesses with rent, mortgage and utility bill assistance. Grant recipients will be contacted in the coming days with their grant award amount. The City will begin sending out grant funds the week of June 1, 2020.

The Waukesha Works Economic Recovery Grant program was designed to assist small businesses (20 or fewer Full Time Equivalent employees) located in the City who have been impacted by the COVID-19 Pandemic. "We were pleased with the response to the grant and are glad we can support and assist our business community during this crisis," said Mayor Reilly. "The preservation of our local economy is one of my main priorities and anything the City can do to assist our local business partners during this time is extremely important."

The City received over 150 applications from Waukesha businesses, totaling \$1.6 million dollars in requests for rent, mortgage, utility bills, marketing, and business improvement assistance. Given the number of requests and a grant budget of \$500,000, grant awards were limited to rent, mortgage and utility bill assistance to small businesses.

These funds will not only benefit the businesses who directly receive them but will also provide community wide benefits. The community wide benefits include helping small businesses continue to provide employment opportunities and services to the community, limiting vacant office/storefront space in the City, and helping to maintain commercial vibrancy for the community.

Pending final verification and review the small businesses receiving grant awards are:
