2019 DROP OFF CENTER RATES

Explanation of Changes Beginning January 2018

Beginning January 1st, 2018, rates are being adjusted at the City of Waukesha Drop-Off Center. The adjustments will affect ALL customers of the center - including senior citizens (age 62 and older) – when it comes to disposal of certain items. Here are the major adjustments made:

- 1) The **Season Pass** (for residents under the age of 62) will now be a “**Yard Materials ONLY Pass**”, which will NOT cover disposal of landfill trash items. Every load of landfill trash items will be charged per-load. This includes even just single items of landfill trash.
- 2) **Senior citizens** (age 62 or older) **will begin paying a fee for landfill trash items per-load**. This rate is discounted from the normal rate. Yard material (and recycling) drop off remains no-charge for senior citizen residents.
- 3) A new option of a **Day Pass** is offered for all residents for either yard material or landfill trash disposal. The Day Pass gives residents an option to pay once and make as many visits as they need that day for their household project.
- 4) All residents wishing to dispose of liquid latex paint will pay **25 cents per gallon**. This rate is standard despite how full the can may be. And, this does apply to 5 gallon buckets, which would be \$1.25.
- 5) **Yard material** (for residents under the age of 62) loads in a vehicle (smaller loads) rates have **gone down by \$1 per load to \$3**. Trailer loads of yard material (large loads) will still be \$4.

Additional Notes:

To help **ease the transition of the 2018 adjustments**, senior citizen residents (age 62 or older) will initially be allotted two landfill trash drop offs at no charge (per address) before paying the discounted rate for subsequent loads. The counting of these two no-charge disposals started in January 2018 and continues into 2019. The count does not reset in the new year.

Additionally, residents who purchase the new “**Yard Materials ONLY Season Pass**” will be allotted two (2) landfill trash drop offs to use any time during the year purchased.

The Drop-Off Center remains a resource **meant for City of Waukesha residents and materials**. The center is **NOT** for all Waukesha County residents and materials (except for recyclables).

Lastly, the center is for residential use only, not for businesses or contractors.
