April 15, 2019

SUBJECT: Summit Avenue Utility and Street improvements & Area 7 Flood Mitigation Project
N. University Dr. to N. Grandview Blvd.
City of Waukesha
Public Information Meeting

Dear Resident / Property Owner:

The City of Waukesha is conducting a public information meeting to present and discuss proposed improvements to Summit Avenue between N. University Dr. and N. Grandview Blvd. This roadway reconstruction project is scheduled to begin in late April/Early May of this year and is scheduled to be completed by September 27. The meeting is scheduled for **Thursday April 25th, from 5:00 PM to 6:30 PM at the City of Waukesha City Hall, Room 207, located at 201 Delafield Street, Waukesha, WI. Please enter through the lower level glass doors and follow the signing to upstairs Room 207.**

The City of Waukesha will be reconstructing Summit Avenue and replacing/upgrading underground utilities from Greenmeadow Dr. to N. Grandview Blvd. Also, as part of this project, the asphalt pavement along Summit Avenue will be resurfaced from N. University Dr. to Greenmeadow Dr. The scope of work for this project along Summit Avenue will include water main upsizing, large diameter storm sewer installation, and pavement reconstruction and resurfacing. The sanitary sewer throughout the project limits will also be rehabilitated via lining, and most sanitary sewer laterals will be replaced.

The meeting's intent is to present the final improvements proposed for the Summit Avenue construction; and to provide general information related to construction staging, detours and access to properties during construction. Exhibits will be on display; and personnel from the City will be present to discuss the improvements with you on an individual basis.

The meeting will be conducted in an open house format. You may attend at any time between 5:00 PM and 6:30 PM. If you cannot attend and have questions related to the project, please contact:

Brandon Schwenn, P.E.
City of Waukesha Project Manager
(262) 524-3585
